

Simplify & optimise your processes

We've got a range of tools to help you work smarter, not harder.

The Sage Pastel Pastel Payroll optional modules have been carefully designed to provide you with a range of tools to work smarter and more efficiently. We give you the option to select from the modules that you feel best suit your business.

Industrial Council Compliance

- We cater for the following Industrial Councils: MIBFA, MIBCO/MICFA, the Electrical Industry, the Road Freight Industry and Private Security Industry.
- You no longer have to manually complete reports, simply generate the submission file and e-mail it at the click of a button.

Human Resources Management

- This easy-to-use system suits any size and type of business ensuring performance reviews and disciplinary actions are done correctly and accurately.
- With standard compliant HR forms and templates you can customise to suit your needs.

Salary Structuring *

- This module simplifies the task of structuring a total-cost-to-company remuneration employee package.
- You are able to update employee payslips within the structure you define.
- Make use of the nett-to-gross package calculation to accurately determine the gross basic salary.

Self Service

- A web-based tool enabling employees to manage their information online. This includes viewing payslips, applications for leave, travel claims and updating personal information.
- Extended Personal Profiles, Linked Assets, Notes, Medical Details and more.
- With Sage Self Service Multi Company, you can link employees to your org-chart, even if they are in a different company.

Multiple Transactions Manager

- This feature allows you to make multiple transactions across the entire company or specific groups within the payroll system, such as increases, leave applications, and process production bonuses or commissions.

Third Party Payments **

- Make payments to medical aids, pension funds, provident funds, garnishee orders and retirement annuities as well as perform company deductions and contributions – all at the click of a button.

Multiple Countries

- Simply choose the countries where you need to process from our list. Install, register and process payrolls for any combination of countries without separate installs or registrations.

Netcash

- Ensuring accurate information for your payroll. Validate and verify your employees' ID Numbers and Bank Account details and send the payment straight from your payroll to your Netcash account, reducing the risk of separate bank export files.

We've got your back.
Various support channels available,
when you need it.

Your payroll data
is always safe
and secure

GL integration with
Sage 50cloud Pastel

Designed around legislative
requirements in mind.
